Hi there, have just made payment via internet for this auction. I would like the "golden glow" shade iluminizer thank you. I am moving to Fiji in 2 weeks so wondered if in future I could order on line by credit card and pay extra postage? Just love this product and dont want to be without it :) Many thanks, Stephanie!!

Thanks so much for the foundation, the colour is perfect!!!! I have to be honest, I usually use either ID or Jane Iredale foundation cause I just love the mineral makeup. As you know they cost around \$85.00 to purchase. I'm planning my wedding at the moment so I'm on a bit of a budget really and when I saw your product on Trademe I thought I'd give it a go. I really didn't expect it to be that good, well certainly not as good as my \$85.00 makeup. I was only buying it to get me through until I could afford my usual. Wow!!!! So glad that I'm on a budget, otherwise I would have never come across your amazing foundation. While Jane Iredale etc are good and did the job, they are nothing compared to what I bought from you. The coverage is amazing and it feels great...also it actually lasts the whole day, believe me that is quite hard to find. I've already got one of my friends hooked as well - she will probably place an order with you soon. I will certainly be purchasing from you in the future, although I won't go through Trademe next time. So anyway I just wanted to say thankyou for a great product. Descriptions on Trademe can sometimes be misleading, well to be honest a lot of makeup products promise the earth and deliver nothing - your product simply delivers what it says. PERFECT!!!! I really wanted you to know how happy I was, not only with the product, but with your friendly service.

I received my order on Wednesday. Thank you for such prompt service! I have to say that I am so happy with my starter kit. It is by far the best foundation I have used ever! I will definitely be ordering a big pot of foundation and finishing powders and starting on my new collection of makeup next month. It is so good to be able to wear something that doesn't make me breakout like a teenager. I'm almost 30 and I have my dignity back!! Thank you for a wonderful product.

Sincerely,

Nikki - Albany, Auckland

P.S. After writing this email, I had my niece's birthday party to go to. After that, I went horse riding and then popped in to see Mum. I was AMAZED to see that after a REALLY full on, not to mention grubby day, no touch ups, only lipstick was gone. WOW. Thanks again.

Hi Susan

I am in love!!!! I want the entire range, I want to tell the world about your mineral make up it's fantastic!!! I showed my partner he thought it looked nice & that I had used the right colour which was so easy to choose from the three! I asked my mum (for a girls opinion) she thought it was great. I have tried two shades clamshell and beige rose. I think clamshell is the better of the two for me, but I noticed you don't do a starter pack for clamshell - is that right? My application with stood a huge down pour yesterday morning (I was soaked) and 4 hours cleaning my house and lasted right up until I had a shower, I am very impressed!! want to get some of the other products so will start off slowly at first but would love a little of everything hehe.

Thanks again Susan

AWESOME! Fast delivery. I'm a receptionist at a real estate company so it's important for me to have flawless makeup. This stuff is fantastic! I cant go back to my old foundation, just does not compare. The females at work have commented how nice my makeup looks, i'm hooked and once they try it i know they will be as well. I cant wait to see what the eye-shadow is like. Keep up the great work. I'll be back again ;)

All women owe it to themselves to try your wonderful, versatile products! One of the many things I like about the foundation , is I no longer need a separate concealing product. My make up bag is much more streamlined now. The blusher gives a lovely natural result as well.

I am very, pleased I decided to try your range and shall be recommending your products to friends.

Kind regards

Heather Morris

I am a HUGE fan of mineral foundations and I have every mineral foundation under the sun from maybelline to thin lizzys new \$120 compact. SERIOUSLY I was shocked when I used the Flawless foundations for the first time! The results are exactly what the name of the product is FLAWLESS!! I'm hooked for life :) I can't see myself going back to the other compacts I have-what a waste! IT'S THAT GOOD!
